

Bible Verse

For we did not follow cunningly devised fables when we made known to you the power and coming of our Lord Jesus Christ, but were eyewitnesses of His majesty. For He received from God the Father honor and glory when such a voice came to Him from the Excellent Glory: "This is My beloved Son, in whom I am well pleased."

And we heard this voice which came from heaven when we were with Him on the holy mountain.

And so we have the prophetic word confirmed, which you do well to heed as a light that shines in a dark place, until the day dawns and the morning star rises in your hearts;

THE SALINE PROCESS TRAINING:

A training program on Saline process was conducted on 19th July 2016 at Karigiri and 11 staff were deputed to participate.

Dr. Frederick and Mrs. Esther from CMC, Vellore were the Saline Trainers. Dr. Mannam Ebenezer, Director in his opening remarks emphasized the importance of saline process to equip the health care workers to be witness for Christ.

The meaning of Saline process is: being a witness enabled by the Holy Spirit and pursue our journey towards Jesus Christ with others. It emphasized that faith in health care is very important because (a) in Scripture many people received health and healing through faith; (b) many research conclusions point that faith and health are integrated and interlinked.

The saline process training emphasized the need for health workers to understand God's calling, to be the light and salt to the world and bring others to Jesus Christ through truth and love. In concise the Saline is the process of cultivating, sowing, harvesting and multiplying by Prayers, faith, truth and gospel presentations and life witness.

The saline process was a blessing for all the participants and it provided an opportunity to fulfill God's final command - sharing the good news to others; be a witness and guiding others to Jesus Christ.
